To add a little excitement ( actually more than a little excitement ) Mick Moran of Arkansas had a severe heart attach Friday night and is to have by-pass surgery this Wednesday, he has 80% blockage in 3 arteries. We were very fortunate to have two Veterinarian doctors in our Shuffleboard Family present that were very proficient in CPR and 3 or 4 others that knew what to do that kept him breathing until medics arrived. He was taken to the local hospital and air lifted to Cox South in Springfield, Missouri where he is waiting to undergo surgery. We will try to keep you updated. Please keep Mick Moran in your thoughts and prayers.
